

How Comprehensive Printing and IT Solutions Empowered a Northern Indiana Food Retailer to Excel

Industry: Food + Beverage
Services Used: Copiers + Printers
Managed Print Solutions

“The benefit for us is their partnership. They’re more than just Managed Print Solutions. They also offer other things like technical support. I have the peace of mind knowing that I have support that’s reliable and knowledgeable to help me when I have issues outside of my expertise... They’re a great team of people to work with. They’re responsive, helpful, affordable, and reliable.”

Customer Challenge

In the dynamic landscape of food and beverage retail, businesses often grapple with managing IT infrastructure across multiple locations. Belmont Beverage, with 34 stores across Northern Indiana, was faced with the dilemma of optimizing their IT infrastructure while ensuring seamless print operations. Their IT Director was determined to find a trusted partner to streamline operations. Their goal was clear: to find a solution that would empower their team, alleviate IT burdens, and drive efficiency across their print management processes.

Applied Solutions

Applied swiftly implemented a tailored solution to address their unique challenges. HP multifunction printers were deployed across all stores, seamlessly integrated with Applied’s Managed Print Services (MPS) program. This meant remote diagnostics and automated toner replenishment no longer burdened their IT staff ensuring uninterrupted printing operations. Additionally, a robust Ricoh copier was installed at their corporate headquarters further centralizing print management. Applied’s team provided comprehensive technical support, allowing the retailers IT team to focus on strategic initiatives rather than day-to-day operational tasks.

The Benefits

Reduced printer count and increased efficiency

Simplified Billing: clear, transparent pricing for print services

Reliable technical support from Applied experts

Reduced downtime, ensuring operational continuity

IT staff empowered to prioritize strategic initiatives
