

Growing Church Streamlines Accounts Payable Process with Digital Solutions

Industry: Religious Organization
Services Used: Copiers + Printers
Shredding Services
Managed Print Services
Document Workflow Solutions

“They help us do our job better in the accounting department and be more effective for the church. If we’re more effective in our time and cost savings, then that money can be used for mission work or community events. It’s nice to work with someone in business that you feel actually cares about helping you do your job better.”

BETTY BARTEK
Resurrection Life Church

Customer Challenge

Resurrection Life Church (ResLife), founded in 1967, has grown to an average of 4,000 attendees across multiple services. Despite this growth, their accounts payable process remained paper based. Purchase orders and approvals circulated the office for signatures, then returned to the accounting office for check processing. Copies were made and stored in boxes, making the entire process time-consuming and delaying approvals.

Applied Solutions

Applied introduced ResLife to their Document Workflow Solution which utilizes OnBase™, a software designed to streamline their accounts payable process. This solution replaced their paper-based system, enabling digital management of purchase orders, approvals, and check processing. Additionally, Applied hosted user seminars with experts from Hyland Software, the developers of OnBase™, to keep the church’s accounts payable team updated and informed.

The Benefits

- Streamlined approval processes
- More timely payments
- Easy history lookup by check or purchase order
- Ongoing user seminars for updates and best practices
- Eliminated file drawers and paper storage

At Applied Innovation, we have nearly four decades of technology expertise, 550+ team members, world-class brand partners, and a passion you’ll rarely find in a business like ours. Plus, as an independent dealer, we have the autonomy to always do what’s right for you. Whether your goal is adopting new technologies, making smarter use of the tools you already use, or maybe a mix of both, our people are always available. And always happy to help.
