

Out-of-Door Academy Reduces Print Costs and IT Burden with Secure, Managed Print Services

Industry: Education

Services Used: Managed Print Services
Print Management Solutions

“The PaperCut solution has really helped us consolidate the number of printers that we have on campus, reduce the amount of wasted paper and toner, and greatly increase the confidentiality of everything our administration and faculty print. The customer service response has been 100%. I can’t speak highly enough about the service Applied Innovation provides and the expertise of their technicians. It has taken the stress of managing 30 to 35 copiers on a day-to-day basis off our IT department.”

TRISTAN FLIS

IT Support Manager, Out-of-Door Academy

Customer Challenge

Founded in 1924, Out-of-Door Academy is a leading Pre-K through 12th grade college preparatory school, operating across three campuses in the Tampa Bay area. The school needed a managed print services (MPS) partner to relieve the burden on its IT department, reduce printing costs, and ensure reliable, responsive technical support. With dozens of devices across multiple buildings, print management had become time-consuming, inefficient, and costly.

Applied Solutions

Applied Innovation conducted a comprehensive walk-through of all three campuses, alongside the school’s IT Support Manager, to determine the optimal placement for approximately 30–35 multifunction copier/printers. Costly desktop printers were removed to consolidate the fleet and improve efficiency. PaperCut print management software was implemented to handle day-to-day printing, track usage, and control costs. With Applied Innovation’s proactive management and responsive service, both remote and on-site, the IT department no longer has to manage printer issues, replace toner, or handle device maintenance.

The Benefits

Reduced printing costs and minimized waste in paper and toner

Increased confidentiality and document security for administration and faculty

Freed IT staff from managing and maintaining the print fleet

Fast, reliable customer support with virtually zero downtime

Trusted sales and technical representatives who understand educational workflow needs

At Applied Innovation, we have nearly four decades of technology expertise, 550+ team members, world-class brand partners, and a passion you’ll rarely find in a business like ours. Plus, as an independent dealer, we have the autonomy to always do what’s right for you. Whether your goal is adopting new technologies, making smarter use of the tools you already use, or maybe a mix of both, our people are always available. And always happy to help.
