"Applied Innovation is one of our strongest partners here at the agency. I know that my employees can be effective and efficient with these services. Applied Innovation understands the Children's Grief Center of the Great Lakes Bay Region and our needs and also what services they can provide us to be successful in the future."

CHRIS SABOURIN

Executive Director, Children's Grief Center of the Great Lakes Bay Region

Customer Challenge

The Children's Grief Center of the Great Lakes Bay Region provides support services for children and families navigating the loss of a loved one. As a nonprofit organization, they needed reliable technology solutions that would help staff remain connected and responsive while operating within budget constraints. They were looking for a trusted partner that could provide dependable products and services, understand their unique mission, and support future planning without recommending solutions that exceeded their needs or resources.

Applied Solutions

Applied Innovation worked closely with the Children's Grief Center to understand their operational requirements and long term goals. By providing phone services, multifunction printers, and shredding services, Applied Innovation created a dependable technology environment supported by responsive local service. Ongoing guidance and strategic planning helped ensure equipment remained aligned with organizational needs and budget expectations, giving staff confidence that their technology would support both daily operations and future growth.

The Benefits

Consolidated multiple business services through a single trusted provider

Provided reliable technology that supports day-to-day operations

Enabled staff to communicate effectively with the families they serve

Delivered budget conscious recommendations aligned with organizational needs

Supported long term planning through responsive service and ongoing guidance

At Applied Innovation, we have nearly four decades of technology expertise, 600+ team members, world-class brand partners, and a passion you'll rarely find in a business like ours. Plus, as an independent dealer, we have the autonomy to always do what's right for you. Whether your goal is adopting new technologies, making smarter use of the tools you already use, or maybe a mix of both, our people are always available. And always happy to help.
